FORMALLY SUPPORT:

The nomination of Brazil as the host country for the VI International Conference on Adult Education to be held in 2009. Latin America is worldwide known for its profuse efforts and initiatives in the field of adult education and Brazil is the home country of Paulo Freire, whose legacy has inspired hundreds of thousands of people of all continents of the world. Brazil has a deep commitment to the development of adult education and a strong political will to implement the EFA goals, as demonstrated in the recent EFA UNESCO Reports. Last but not least, the previous International Conferences where held in other continents and being CONFINTEA a world-wide initiative, we consider it equitable that this region be granted the opportunity to host the Conference to come.

WE THEREFORE REQUEST THAT:

The Director General of UNESCO, Mr. Koïchiro Matsuura, introduce this as an issue on the agenda of the Executive Board meeting of UNESCO in April, in order to have a decision within this coming session, so as to allow all of us, in both governmental and non governmental areas, to prepare ourselves and make a success of this coming UNESCO event.
